

The background features abstract, overlapping green geometric shapes in various shades of green, creating a modern and dynamic visual effect. The shapes are primarily located on the left and right sides of the frame, leaving a central white area for text.

ALEIA

Latin American and Caribbean Association of Agricultural Engineering
Students

- 
- ▶ The association was founded in 2010 in Lima (Peru) due to the need to organize students.
 - ▶ One of the objectives is the creation of student organizations in every country where ALEIA have students
 - ▶ In the organization we count with seven members of a general council, three prosecutors and a delegate of every country.

Activities from ALEIA

- First of all, the most important activity from the ALEIA is the formulation of the CLEIA (Latin American and Caribbean Congress of Agricultural Engineering Students)

Ecuador (Manabí, 2011) - Venezuela (Trujillo, 2012)

- Colombia (Neiva, 2013) - Ecuador (Manabí, 2014)
- Colombia (Medellin, 2015) - México (Texcoco, 2016)
- Perú (Lambayeque, 2017) - Colombia (Bogotá, 2018)
- México (Texcoco, 2019) - Next: Costa Rica (San José, s.f)

- In the CLEIA not only conferences are offered, but also integration stations to facilitate connections between students from different countries and additionally practical workshops are offered.

- ▶ Additionally, ALEIA encourages each organization of the participating countries to hold their own congresses to appropriate the dissemination of knowledge.
- ▶ Finally, we also work together with different associations of agricultural engineers in order to ensure the participation of students in congresses and, if possible, discounts and aid in these activities.
